MOVIES REVENUE BY COUNTRY OF PRODUCTION

Length

From 2013 to 2019, the average movie runtime remained relatively consistent, ranging from **105.88** to **107.92** minutes.

However, there was a noticeable drop in 2020, with movies averaging **100.97** minutes, possibly influenced by the production restrictions due to Covid-19, as we can see how it bounced back to the regular range in 2021 and 2022.

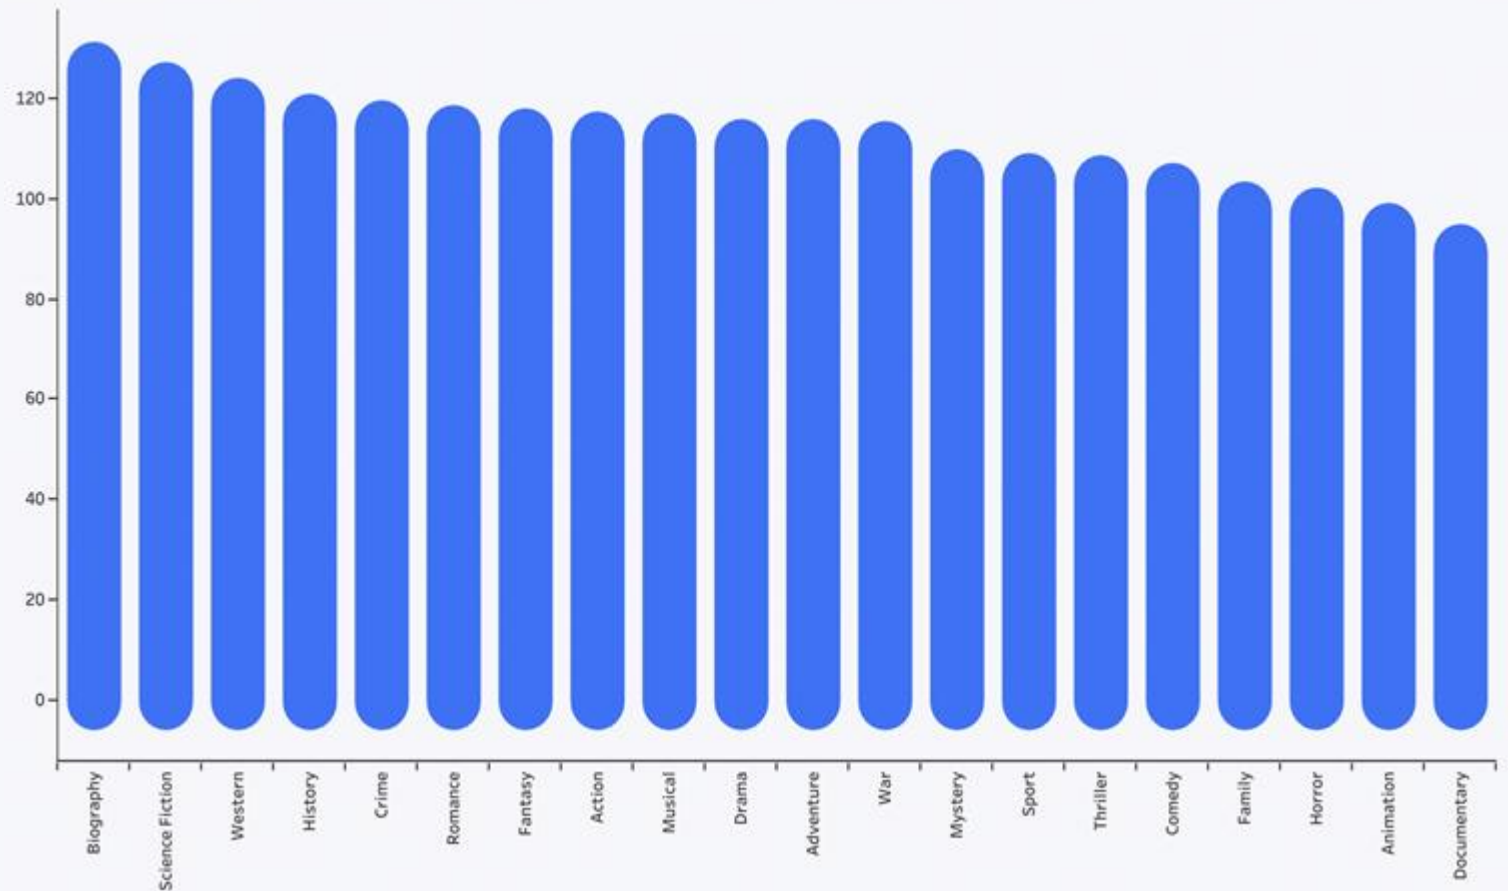

Length

Genres like Biography and Science Fiction tend to have longer average runtimes, exceeding 115 minutes.

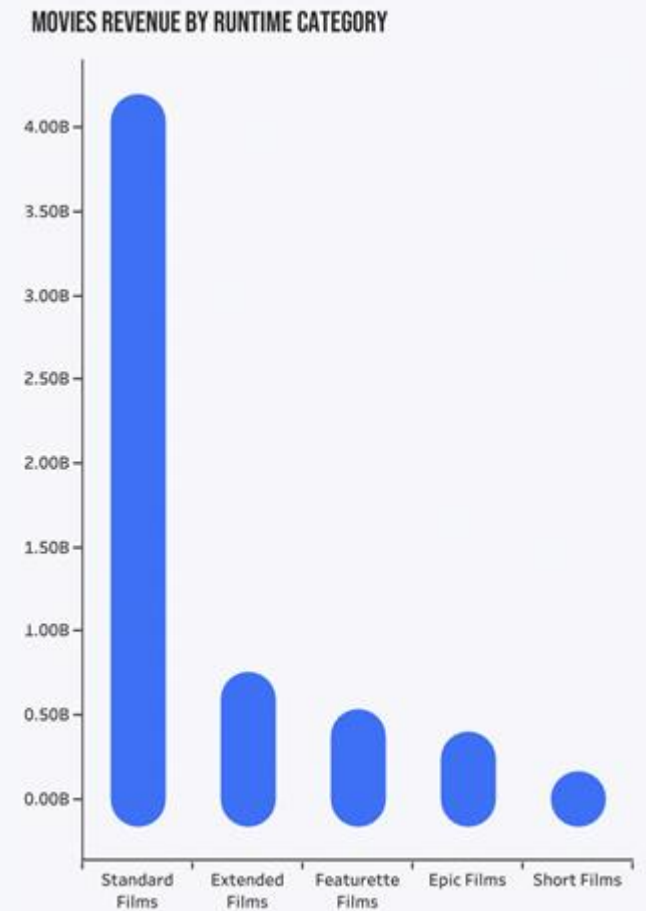

On the other hand, genres like Animation and Horror have shorter runtimes, averaging less than 100 minutes.

MOVIES AVERAGE RUNTIME BY GENRE

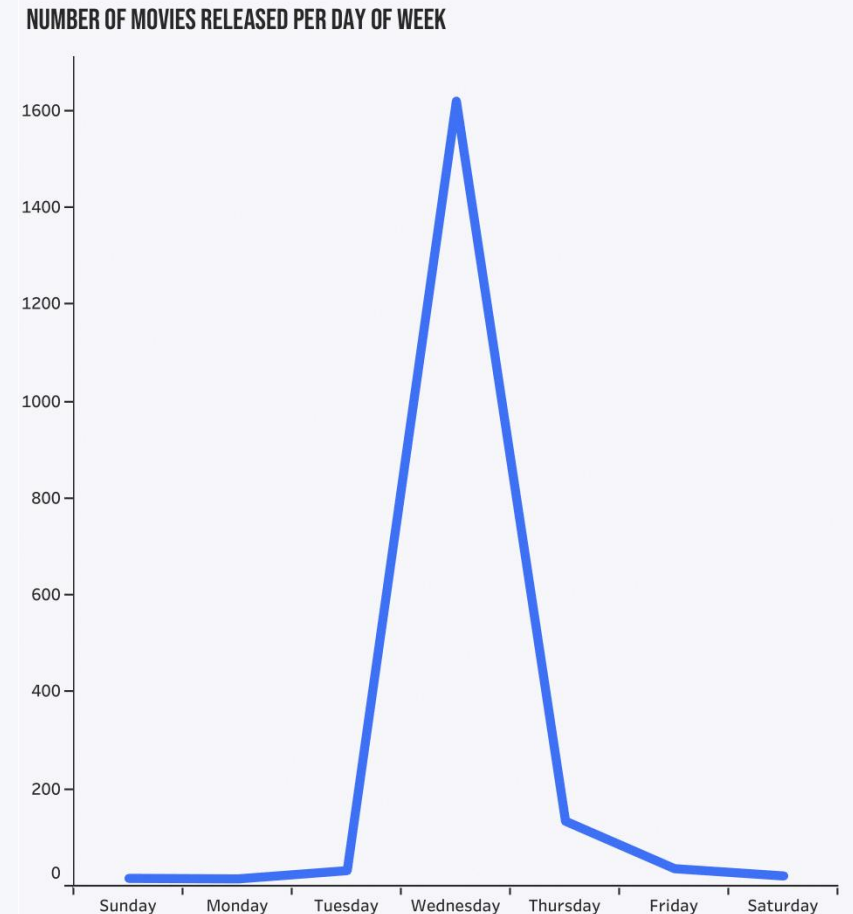

Length

Standard Films, with a runtime ranging from 90 to 135 minutes, generated the highest revenue at **4.04** billion pounds.

Timing

Wednesdays emerge as the preferred day for movie releases.

Timing

Coinciding with the beginning of the new year, **January** sees the highest number of Egyptian movie releases, with notable peak in **April** due to Eid El Fitr season.

Conversely, **October** stands out for foreign movies, potentially targeting the Halloween season and international school breaks.

NUMBER OF EGYPTIAN MOVIES RELEASED PER MONTH

NUMBER OF NON-EGYPTIAN MOVIES RELEASED PER MONTH

Timing

June and **July** stand out as the most profitable months, indicating that movies released during the Egyptian holiday season, particularly Eid El Fitr and Eid El Adha, tend to perform exceptionally well.

January also proves to be lucrative, indicating a strong start to the year.

MOVIES REVENUE BY RELEASE MONTH

Timing

There was a gradual increase in the number of movies released annually.

Correspondingly, revenues show a similar upward trend towards the peak year of **2019**, until the significant drop in 2020 due to the COVID-19 pandemic. However, the industry seems to be bouncing back right after 2020.

MOVIE REVENUE BY RELEASE YEAR

Genres

Thriller movies lead the pack in terms of the number of releases.

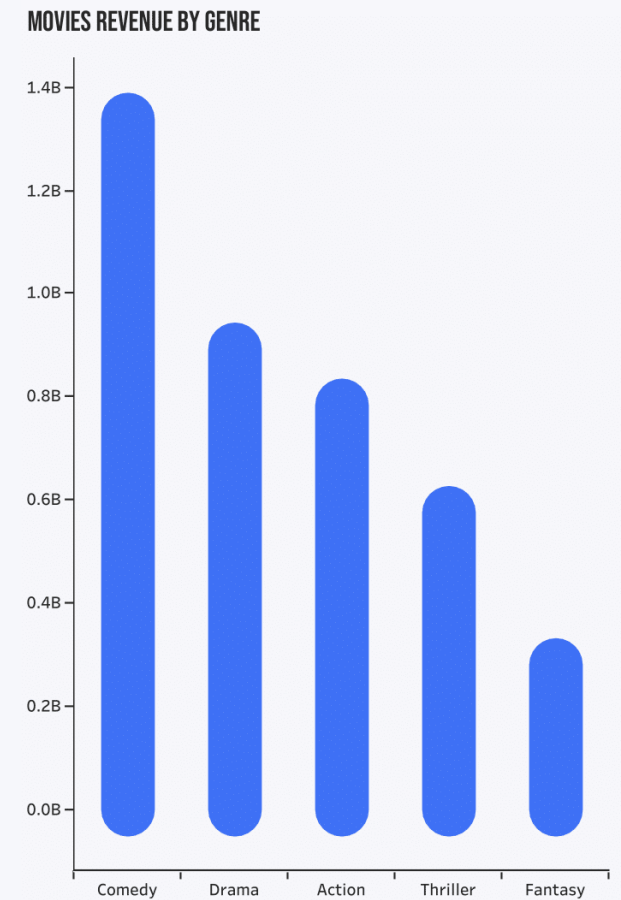

Drama and **Comedy** closely follow.

Genres

Comedy emerges as the top-earning genre.

Drama and Action movies, too, contribute significantly to overall revenue.

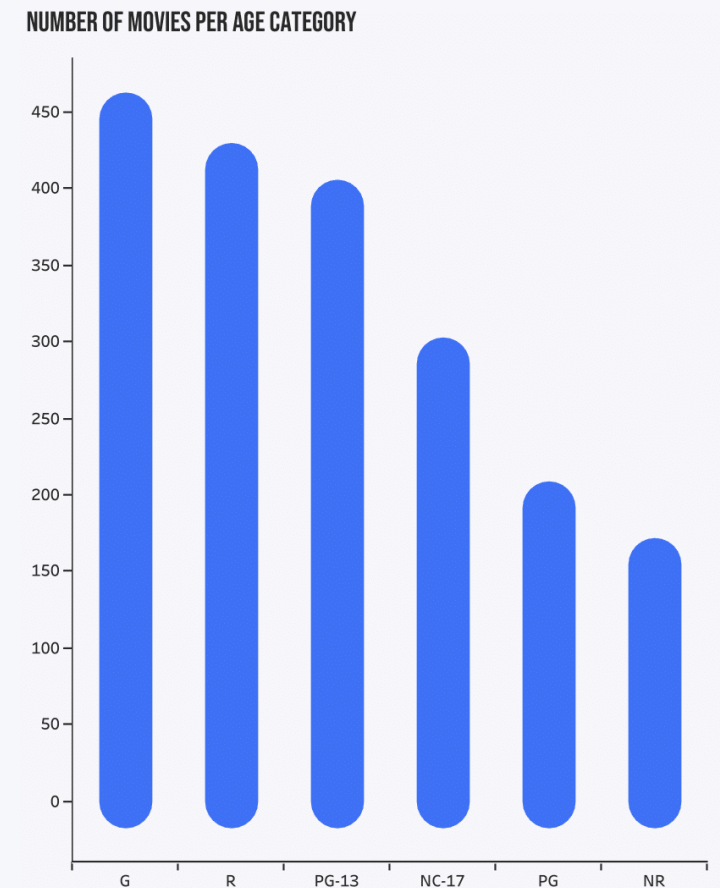

Age

Movies rated **G** (General Audience) are the most common.

R-rated movies, denoting content restricted to viewers over 18 unless accompanied by an adult, are also prevalent.

PG-13-rated movies, targeting viewers above 13, strike a balance between accessibility and content complexity.

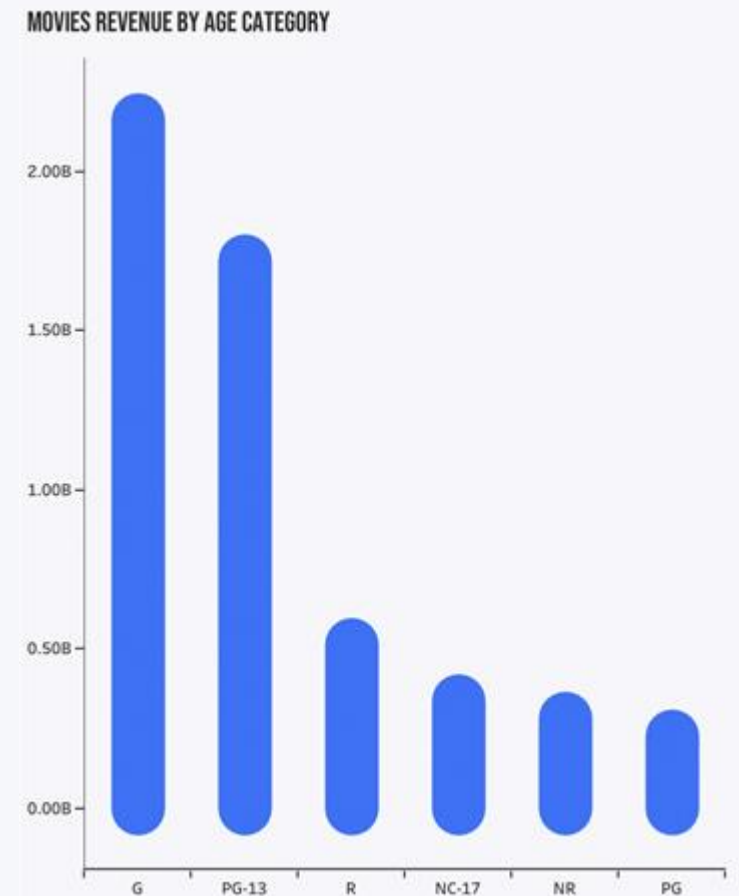

Age

G-rated movies dominate, generating the highest earnings.

PG-13-rated movies, while having fewer releases than G-rated films, still generate significant revenue.

The lower revenue figures for **R**-rated movies suggest that their content may have limited commercial potential in the Egyptian market due to age restrictions.

Directors

Among the directors with the highest number of movies, **Peter Mimi** stands out with an impressive 10 films to his name.

Followed by several Egyptian directors like **Sameh Abdel Aziz** with 8 movies.

The presence of international directors like **Steven C. Miller** and the legendary **Steven Spielberg** in this list demonstrates the global nature of the Egyptian film market.
